VIDEO LED WALLS

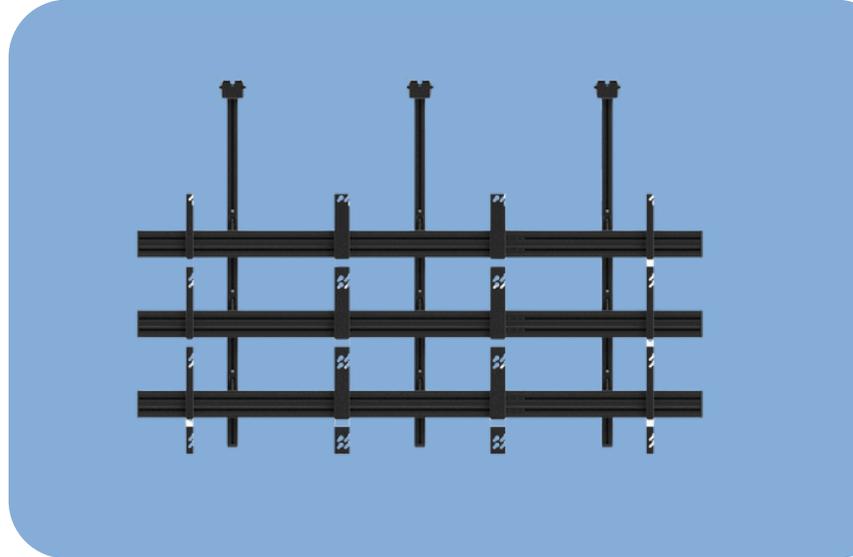

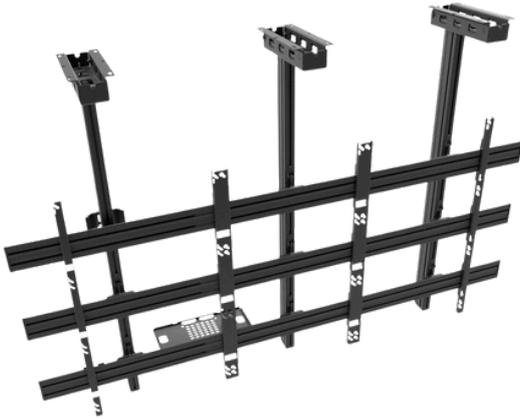

LED Video Wall Mounts – Reliable Installation Solutions for Demanding Setups

Our solutions are designed for easy installation, modularity, and full compatibility with a wide range of LED displays. They allow for both small and large-scale video wall configurations, in vertical or horizontal layouts, tailored to the needs of your project.

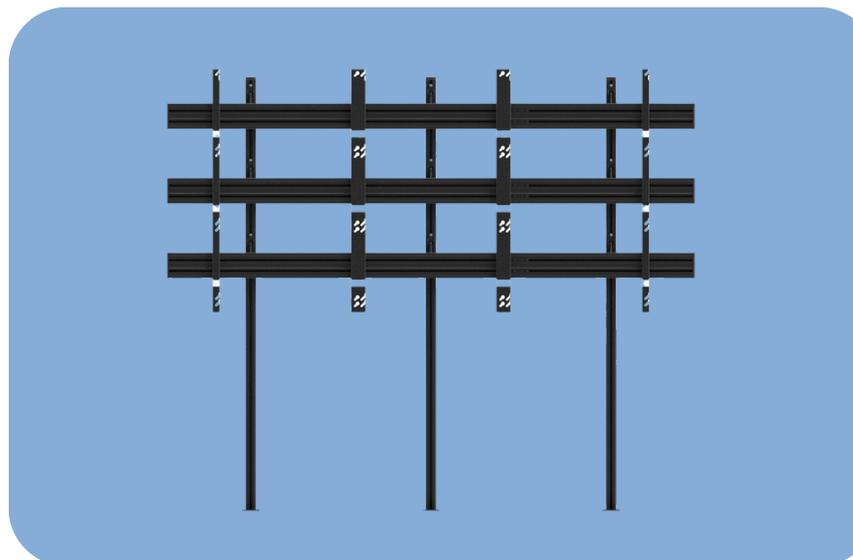

VWLCA Ceiling mount series

Ideal for installations where wall space is limited. These mounts provide a secure suspension of LED structures directly from the ceiling.

VWLSA Bold Down stand series

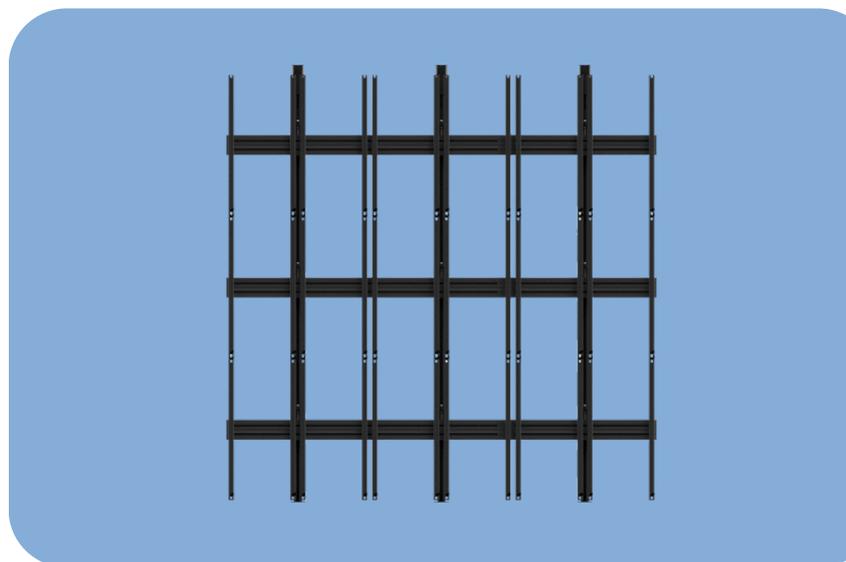

Freestanding structures designed for large-scale video walls. Easy to assemble and mobile, making them ideal for trade shows and temporary setups.

VWLFCFA Floor-to-ceiling mount series

Load-bearing systems anchored between the floor and ceiling – perfect for open spaces, lobbies, or showrooms. They offer excellent stability without requiring wall mounting.

VWLWA Wall mount series

The VWLWA series consists of classic wall mounts specifically designed for professional LED video wall installations. Thanks to their robust construction and well-thought-out geometry, they allow for precise, secure, and aesthetically clean mounting of displays on any vertical surface – both in commercial and industrial environments.

Preferred by AV integrators

KEY FEATURES:

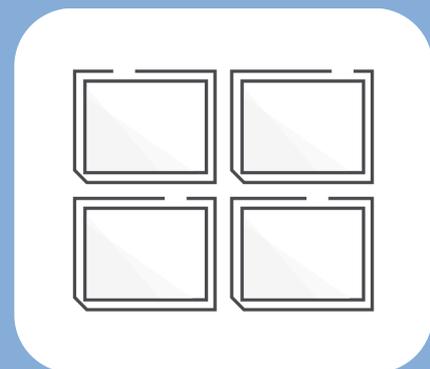

- ◆ Precise alignment – enables perfect screen positioning with no visible gaps or misalignments.
- ◆ Easy service access – allows for quick removal of individual panels without dismantling the entire video wall.
- ◆ Clean, aesthetic finish – slim profile and concealed mounting elements fit seamlessly into modern interiors.
- ◆ Wide compatibility – supports various sizes and types of LED modules.
- ◆ Fast and secure installation – engineered for installers, with time-saving and safety-focused design.

VIDEO WALLS

Video Walls – Dynamic Communication on a Large Scale

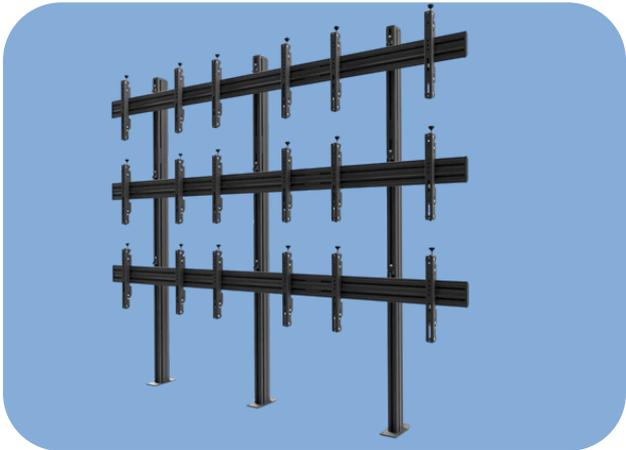

Video walls are the perfect solution for any space that requires modern, dynamic, and effective communication with its audience. By displaying content across multiple screens simultaneously, they deliver a powerful visual impact and full flexibility in content presentation.

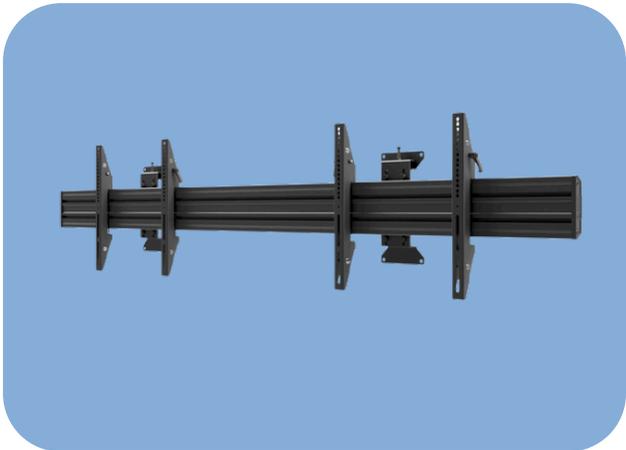

VWTA Series

The VWTA model is a high-end mobile solution designed for 49" to 57" displays, combining top-tier functionality, precision, and aesthetics for demanding professional environments. With its modular design and mobility, VWTA is the ideal solution for environments where flexible and impactful communication is essential – from trade shows and corporate settings to education .

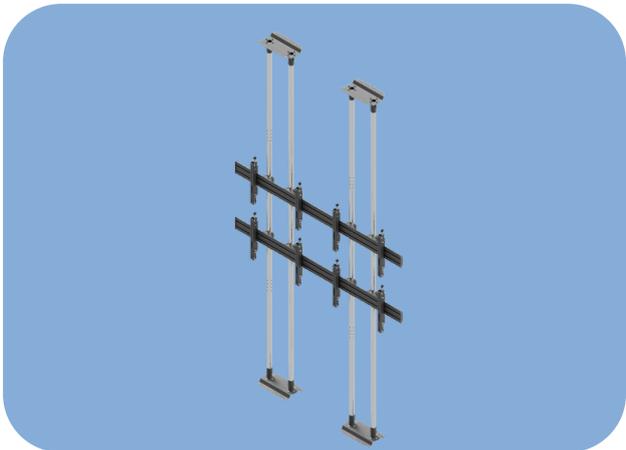

VWSA

The VWSA series offers a versatile range of floor-mounted video wall structures designed for professional multi-screen installations. Built for both stability and visual impact, these solutions are perfect for environments where wall mounting is not possible or where freestanding flexibility is required.

VWM

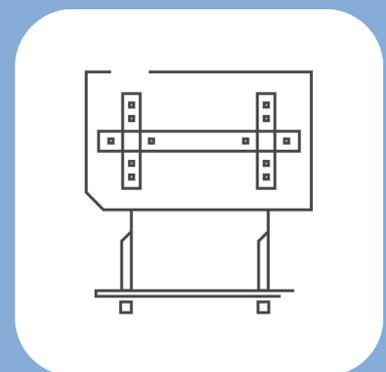

The VWM is a robust and versatile wall mount system designed for multi-screen video wall installations. Its modular structure allows for scalable configurations. Crafted with precision and built from high-quality materials, the VWM ensures perfect screen alignment, secure mounting, and quick servicing access.

VWFCA

The VWFCA system is a modular floor-to-ceiling mounting solution designed for creating stable, space-efficient LED or LCD video wall installations. Thanks to its vertical aluminium poles anchored to both floor and ceiling, and horizontal crossbars, VWFCA ensures the safe and precise mounting of multiple screens in a clean, symmetrical layout.

VIDEO CONFERENCE TROLLEYS

Mobile and versatile, video conference trolleys are designed to support professional displays in modern meeting environments. Perfect for conference rooms, classrooms, and corporate spaces, they offer flexible screen positioning, integrated cable management, and compatibility with additional AV accessories – enabling smooth and effective communication wherever it's needed.

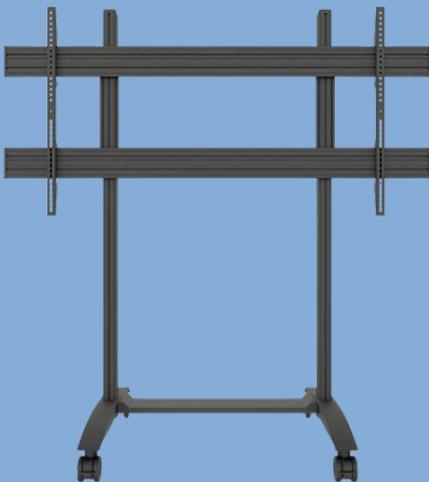

TRE100 – Videoconferencing Trolley for 42”–75” Screens

A mobile and ergonomic solution ideal for conference rooms, offices, and educational settings. The TRE100 offers a durable aluminium structure, adjustable screen height, and integrated cable management. Designed for flexibility, it supports AV accessories and ensures safe, clean, and professional installation of screens up to 75”.

TRV200 Premium Videoconferencing Trolley for 75”–86” Screens

A premium-class trolley designed for large-format displays up to 86”. The TRV200 combines a sleek, modern look with a durable aluminium structure and tool-free screen height adjustment. Ideal for high-end conference rooms, hospitality spaces, and public venues.

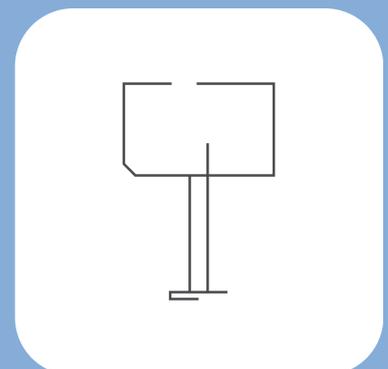

TRV400 – Videoconferencing Trolley for 100”–136” Screens

STANDS FOR SCREEN

Compact, stable, and highly versatile – stands dedicated to 40"–75" screens are the ideal solution for displaying monitors in public and commercial spaces. Designed with durability and modern aesthetics in mind, these stands ensure reliable support for touchscreen displays, information panels, and POS systems.

STD01 – Flat Screen Stand for 40”–75” Screens

The STD01 stand is a universal solution for presenting screens in a modern, elegant, and safe way. Its wide height adjustment range ensures compatibility with various screen sizes available on the market. The solid and stable base, with optional floor anchoring, makes it ideal for lobbies, conference rooms, and commercial interiors. Integrated cable management keeps the installation neat and professional, while the universal VESA mount allows flexible screen integration.

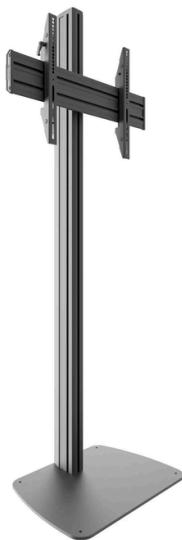

Minimum Screen Size	40"
Maximum Screen Size	75"
Maximum Load	80 kg
Height Adjustment	YES
VESA Mounting	100×100 up to 600×400

STDVI00 – Flat Screen Stand for 40"-75"

The STDVI00 is a universal and elegant solution for screen presentation, combining high-end aesthetics with robust functionality. With full height adjustment, this stand easily adapts to various screen types available on the market. Its solid and stable base allows optional floor anchoring, making it suitable for a wide range of environments—from hotel lobbies to conference rooms.

The integrated cable management system ensures a clean and organized installation, making the STDVI00 an ideal choice for professional and commercial applications.

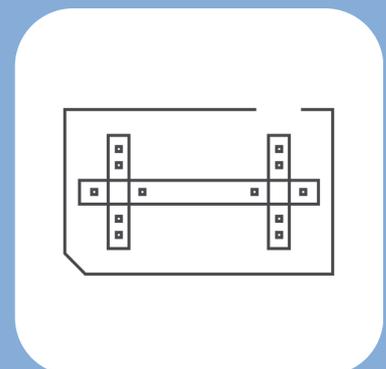

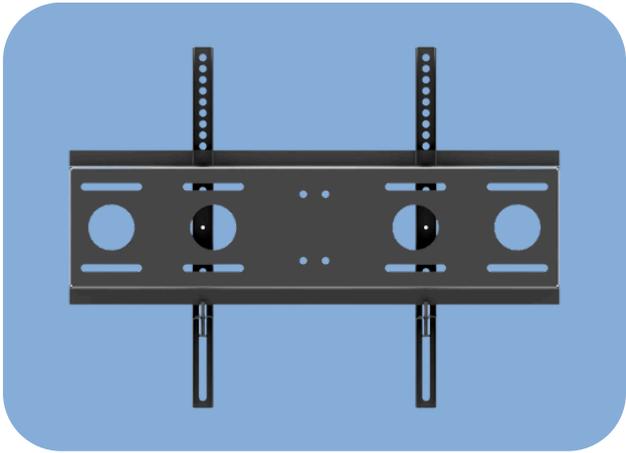

Minimum screen size	40"
Maximum screen size	75"
Maximum load	80 kg
Height adjustment	YES
Tilt adjustment	+11°

DISPLAY MOUNTS

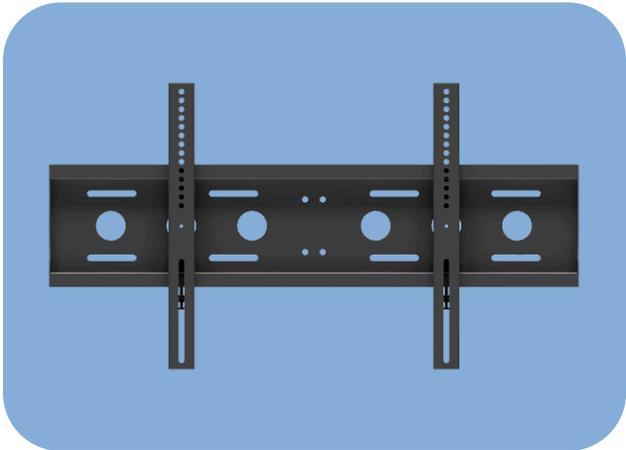

Our Display Mounts category offers a versatile range of solutions for securely installing monitors and displays in both commercial and professional environments. Whether wall-mounted, ceiling-mounted, or floor-standing, each product is designed for stability, ease of installation, and optimal screen positioning. Compatible with a wide range of screen sizes and VESA standards, our mounts are ideal for offices, control rooms, educational spaces, and digital signage applications.

PWB1 Universal Flat Wall Mount for 40"–75" Screens

PWB1 is a robust and reliable flat wall mount designed for universal screen mounting applications. Its minimalist design combines modern aesthetics with advanced functionality. Engineered for durability, PWB1 offers secure screen protection against falling and supports displays up to 80 kg. The mount ensures fast and easy installation on a wide range of surfaces, including concrete, plaster, and wooden walls.

TWB1 – Universal Flat Wall Mount for 50"–85" Screens

TWB1 is a heavy-duty wall mount designed for secure and stylish screen installation. Crafted from 3 mm thick steel, it guarantees durability and stability, supporting screens up to 80 kg. Its universal VESA compatibility and wide range of mounting holes make it suitable for most screen types within the 50" to 85" range.

XWB1 – Universal Flat Wall Mount for 65"–130" Screens

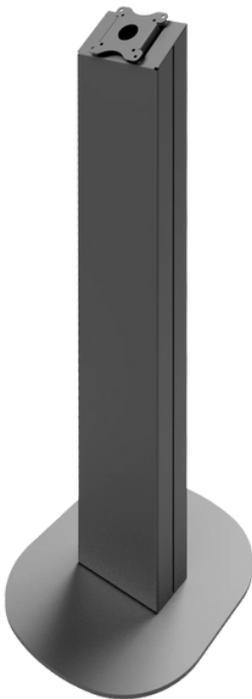

XWB1 is a robust and universal wall mount engineered specifically for larger and heavier screens, ranging from 65" to 130". It supports a maximum load of 110 kg and is compatible with a wide range of VESA standards, making it ideal for both commercial and professional environments.

ITSV03 – Sleek, Stable, and Smart Display Solution

The ITSV03 Tablet Stand blends sleek design with reliable performance, supporting screens from 10" to 29". Ideal for lobbies, galleries, or conference spaces, it features a stable base, integrated cable management, and +8° tilt for optimal usability. With a minimalist look and VESA compatibility, it ensures your device stays secure and stylishly presented.

Colour	Black
Minimum screen size	10"
Maximum screen size	29"
Maximum load	8 kg
Forward tilting	+8°
VESA Mounting Compatibility	75×75 up to 100×100

Let's cooperate.
